PRODUCTIVITY!**

**iAdvantage
Software, Inc.**

eStudy offers Enterprise-wide Pre-clinical Process Optimization and interoperability with Microsoft SharePoint. Pharms and CRO's save up to 80% study management time using eStudy's scientific R&D platform to manage multiple study types, consolidate disparate data and eliminate the pre-clinical bottleneck.

eStudy utilizes Microsoft technology familiar to the user and is easily adopted throughout the organization. Scientists are equipped to design studies, capture, analyze and report comprehensive study data. eStudy conforms to your business today and is flexible to change and grow with you tomorrow. eStudy is 100% web-based utilizing Microsoft .NET and supports 21 CFR Part 11 and GxP compliance.
